Paramount Presents "BLANCHE SWEET" In
"THE CASE OF BECKY"

Miss Sweet assumes a dual personality, that of a young woman stamped by pre-natal influence with two characters, one pleasing and happy, the other mean and vicious. These two personalities, in the one person, struggle against each other for mastery. Throughout the play is a theme of mysticism and hypnotism, subjects that are handled with all the skill and discretion at the command of the Lasky producing force. TO-DAY ONLY. 5c and 10c.

EVANSVILLE MAN IS DYING OF HICCOUGHS

Sister Killed While on Way to His Bedside.

Evansville, Ind., March 5.—Albert Dhomau, of this city, a native of Kentucky, has been seriously ill with the hiccoughs at his home here for the past four days and nights and the attending physicians have administered to him thirty different remedies in the hope of stopping the hiccoughs, but all these medicines have failed and it is said that the man's death is but a question of time. A message was sent to Dhomau's sister, Miss Daisy Dhomau, of Cloverport, Ky., telling her to come at once to see her brother, and while on the way to the depot at Cloverport she stumbled on the sidewalk and suffered a fracture of the skull, from which she died in a short time.

PREFERRED DEATH.

Albert Hayes, col., aged 22, committed suicide in Chattanooga. Hayes shot and killed a companion during the holidays while under the influence of intoxicants, and was sentenced to the Tennessee penitentiary for life. Rather than serve in the mines, he committed suicide, this being one of the few such instances on record.

EXPECTS TO OPEN HOSPITAL SOON

Surgical Instruments Have Been Shipped—Furniture Purchased Here.

Miss Brook, the Nashville nurse who is to come to Clarksville to operate a hospital, is making preparations to open about the first of April. She has had her surgical instruments shipped, and has purchased her furniture for the new institution, buying it from a Clarksville concern. It is believed that the institution will be a success from the very day of its opening, and it certainly will add greatly to Clarksville's assets and place it in line with other towns and cities throughout this section of the State.—Leaf-Chronicle.

The Library Mass-Meeting.

The library mass-meeting, which will be held at the court house next Monday night, (Mar. 6) is an important meeting and the house should be filled by the citizens, who no doubt are very much in favor of the library project, which is now being agitated by the good men and women of the city. It seems the time is ripe now to properly discuss this question. Mrs. W. A. Radford, of Hopkinsville, will be here to discuss the matter and assist our people in learning exactly how to get a public library for Mayfield—Mayfield Messenger.

The lives over of a hundred passengers were endangered by the accident. All escaped injury owing to the fact that only the engine and tender left the rails.

The accident occurred just a short distance from the passenger depot and was witnessed by about fifteen Henderson people who were waiting for the train.

EASY FOR LOCALS

In The Basket Ball Bout With Paducah Saturday.

He made the longest field goal that has been made on the local court this season and his shooting of fouls was very good.

RUSSIAN VICTORY.

The Russian occupation of Bitlis is regarded in Petrograd as a development of first importance. The probable routes thence over the 400 miles to a junction with the British in Mesopotamia already have been mapped out. The fall of Bagdad is considered imminent, according to an Athens dispatch. CONFERENCE CALLED

By a Colored Office Holder, Will Close At 4:30 O'clock This Sore Over His Defeat.

George W. Gentry, president of the State Republican League, an organization of Negro voters, has issued a call for a meeting of the league to be held in Lexington Thursday, March 9, to consider what action should be taken with respect to the failure of the State convention to give the colored voters two out of the eight delegates from the State-at-large to the national convention.

Prominent colored men who are identified with the League say that this is not a "bolt," but simply a call for a conference and all colored voters as well as white Republicans who are interested in fair treatment are asked to meet and talk over the situation and decide what is best to be done.

George W. Gentry, the president of the League, lives at Stanford. He has been in the Internal Revenue service for some time as a storekeeper-gauger, which position he still holds under Collector Hughes, of the Danville collection district.—Lex. Leader.

Nebular Hypothesis.
The nebular hypothesis, as promulgated by Kant and developed by Herschel, is simply a theory of the formation of the solar system. To Herschel it seemed that he was able to view the actual changes by which the nebula, or glowing vapor, became condensed down into stars, as one can study the growth of the trees in the forest, but, to quote the Encyclopaedia Britannica, "in attempting to pronounce upon the evidence with regard to Herschel's theory, we must at once admit that the transmutation of a nebula into a star has never been seen." The actual history of the condensation of the oceans from the primeval atmosphere remains perforce vague.

Bureau Wife Leaves.

Less than three months ago, R. H. Clay, aged 48, and Mrs. Catherine E. Grant, aged 49, were married in Henderson county.
